

Cleanup Messages

We belong together; we are a team, and everyone has a part in the work of our classroom community.

We care for our classroom and our materials; caring for them is a goal we all share.

Clean up is more fun when we do it together.

We take the initiative to find something that needs to be done and start right in.

We keep working until the whole job is done, and done very well.

Cleanup Messages

We are a caring community; that's who we are.

Each of us is a caretaker of our classroom.

We clean and restore our space to make it ready for next time.

We work as a team and help each other do what needs to be done.

If we have problems, we solve them.

We start in right away to do what we see at hand.

We have fun doing this together.

Cleanup Messages

We like cleaning and restoring items to the correct spot, so they are ready for next time.

We work together as a group, because we feel a part of this community.

It is more fun to work together; it is more satisfying, too.

We take responsibility for the entire classroom.

On the signal we look around, decide what to do, and do it until it is complete and clean.

We talk to each other as we work together at a natural pace.
