

Cleanup Time

We belong together as a team where everyone has a part in the work of the community.

We take pride in our classroom and our materials; caring for them is a group goal.

Clean up is fun when we do it together.

We all take the initiative to find something that needs to be done and starting in to do it.

We keep working until the whole job is done and done well.

Cleanup Time

We are a caring community.

Each of us is a caretaker of our classroom.

We clean and restore our space for next time.

We work as a team and help each other do what needs to be done.

If we have problems, we solve them.

We start in right away to do what we see at hand.

We have fun doing this together.

Cleanup Time

We value cleaning and restoring items to the correct spot, so they are ready for the next opportunity.

We work together as a group, because we are a community.

It is more fun to work together; it more satisfying, too.

We take responsibility for the entire classroom.

On the signal we look around, decide what to do, and do it until it is complete and clean.

We talk to each other as we work together as a team at a natural pace.
